

# EFHW Configuration 1 Sloper.

Test setup and verify SWR ahead of Deployment!

At 100W Reached Slovenia from Puyson.  
w/ No Tuner. Wire antenna matched at  
7.25 MHz

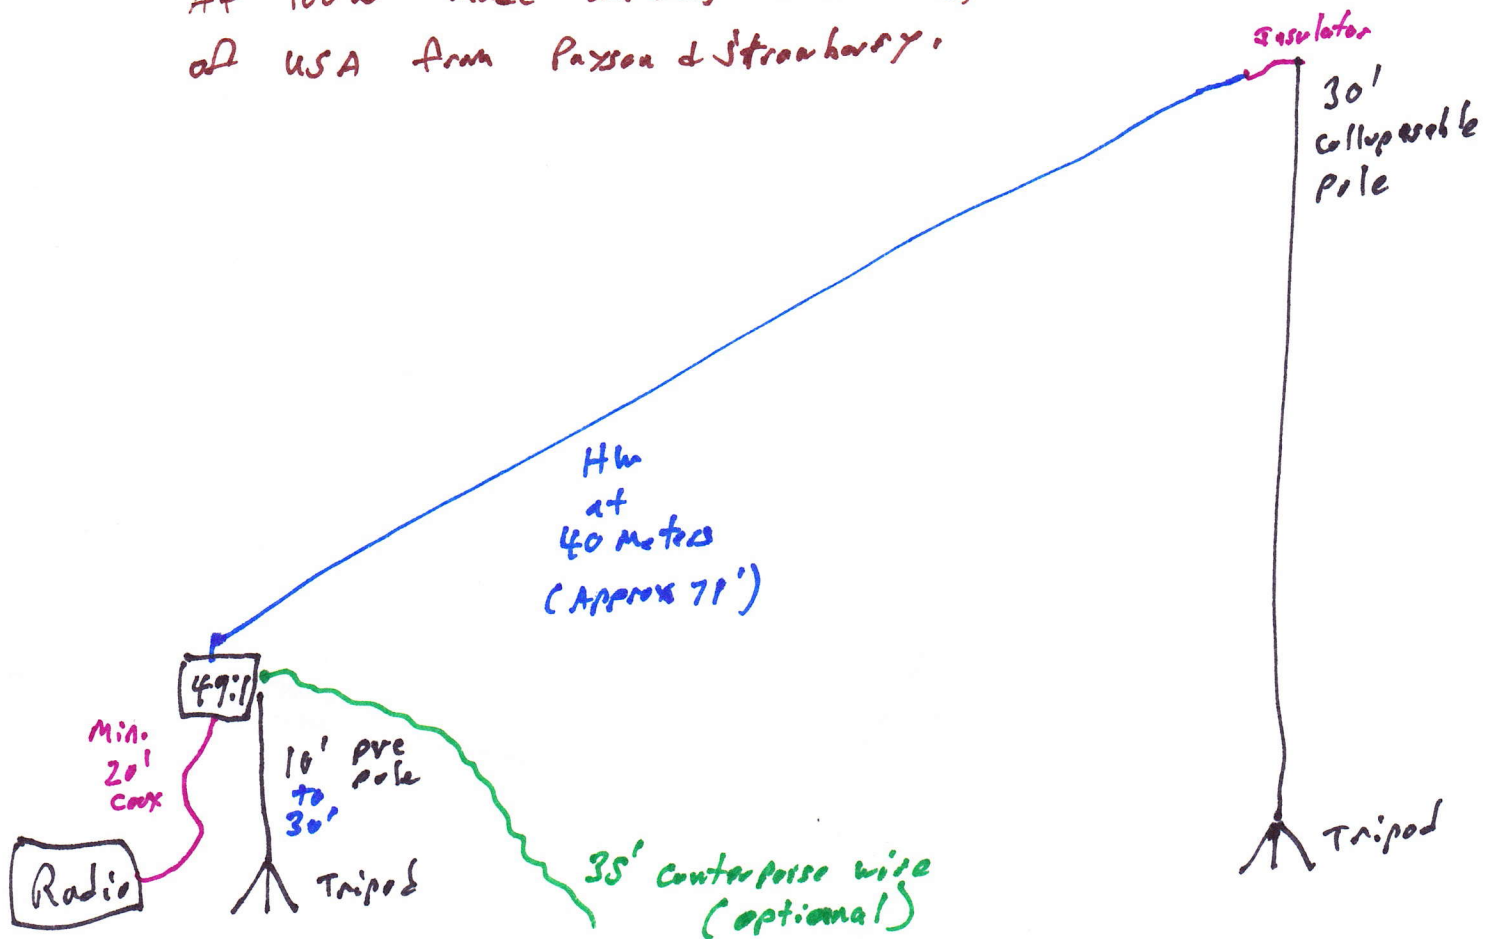

# E F H W Configuration 2

Raised sloper or Horizontal

Test set-up and verify SWR ahead of Deployment

At 100w made contacts over most of USA from Passaic & Strawberry.

# EFTW Configuration 3

Test setup & verify SWR before deployment.

Note: IA antenna is tuned in sløper configuration, SWR will change when used as inverted-V!

Used @ SW to make contacts in California from Strawberry while testing; note: a tuner may be necessary.
